36–48 STEELES AVE E / 37–49 HIGHLAND PARK BLVD · MARKHAM · IN RECEIVERSHIP

Three towers, one *healing* community

An approved two-tower site at Yonge & Steeles, bought out of receivership: affordable and market rental, a Heal House retirement residence with wellness stays, and a boutique condo tower — anchored by the Building Ontario Fund, BCH and CMHC. Heal House buys the site from the court-appointed receiver.

02 · HOW THE SITE COMES TOGETHER

1. **LiUNA's pension backs Nesting Ground's guarantee pool**, lifting the land loan from $19.5M to the full $31.0M price — an $11.5M guarantee.
2. **Heal House buys from the court-appointed receiver** and pays out the secured lenders; $8.7M of equity at purchase covers transfer tax, carry and pre-development.
3. **Tower A and Tower B close construction financing**; each tower's stack retires its share of the land loan.
4. **Sunray funds the wellness-stay suites** ($27.4M); **Tower C** follows once rezoned, sold through presales.
5. **At Year 10**, refinancing repays every BCH dollar; the Fund stays in Tower B to Year 20; Heal House keeps the buildings.

03 · WHAT WE NEED TO RAISE

$53.2M — Building Ontario Fund — Tower B, $141K/home, to Year 20

$100.2M — BCH — 10-year loan, repaid in full at Year 10

$212.1M — CMHC MLI Select, Towers A + B

$21.2M — City of Markham — incentives / DC relief

$37.5M — Sponsor equity — $8.7M at purchase, rest at construction close

$11.5M — Land-loan guarantee — LiUNA via Nesting Ground

$27.4M — Sunray — wellness-stay suites

$22.5M — Tower C equity (20% of cost), later phase

04 · WHAT IT RETURNS

Tower A — Year-10 cash · sponsor multiple	$55.0M · 5.7x
Tower B — Year-10 cash · sponsor multiple	$52.7M · 5.8x
Tower C — condo profit at $1,050/sf	$51.3M · 31%
Heal House — members, outside clients, fees	$4.7M EBITDA/yr

BCH gets all $100.2M back at Year 10. The Fund is paid 4% a year and repaid at Year 20. Heal House then owns Tower A ($86.5M equity) and Tower B ($55.6M equity).

HEAL HOUSE

A sanctuary for healing.

05 · IF IT RUNS LEANER

At 65% expenses and 90% occupancy, NOI is $8.9M, coverage 1.84x, and the Year-10 refinance still repays BCH in full with $36.2M to spare.

06 · WHY BCH AND THE FUND BACK IT

- **Mirrors CMHC's MLI Select retirement-home financing** — the same route as Heal House Listowel — and **BCH gets every dollar back at Year 10**.
- **Seniors' housing and health care in one building**, with 76 homes affordable for 40 years.
- **Modern construction and building technology:** Cube Building Systems, with construction management by V1 — Mike McGrath, formerly of Tucker HiRise.
- **A pension partner alongside:** LiUNA, through Nesting Ground's guarantee pool.

07 · STATED OPENLY

- **Licensed retirement home** under Ontario's Retirement Homes Act, like Heal House Listowel; an experienced operator or management contract until Heal House has a track record.
- **Rents of $6,000 / $7,800 all-in need a Markham market study.** Earlier Listowel/Barrie figures (~$14,000/room) are well above market and are not used.
- BCH modelled interest-free to Year 10; at 4.5% it is still repaid with $41.3M to spare. The Fund's 4% return and terms are placeholders.

05 · STATED OPENLY

- **Tower C is not approved.** Markham staff raised concerns about the 49/44/24-storey version; rezoning takes 12–24 months.
- **GTA condo presales are weak;** lenders want 60–70% presold. Below ~$900/sf the tower is better held as rental.
- BCH's $79.5M on Tower A is repaid in full at Year 10 — with $11.0M to spare even if BCH charges 4.5%.
- Development charges are estimates; tower floor areas are split by storeys pending stamped drawings.

THE SITE · THE TEAM · WHAT HAPPENS NEXT

Ready to *move*

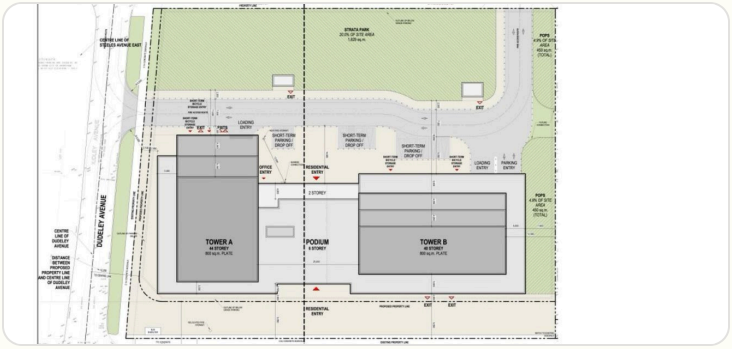

One block from Yonge on the Steeles corridor, approved by the Ontario Land Tribunal, with a team that covers the guarantee, the labour, the operator, the hospitality piece and the builder.

01 · LOCATION

The site, outlined in red: Steeles Ave E to Highland Park Blvd at Dudley Ave, one block east of Yonge. Map: City of Markham.

02 · APPROVED SITE PLAN

Tower A (44 storeys) west, Tower B (40) east, six-storey podium, 1,829 m² strata park, 450 m² POPS. OLT final order May 7, 2024 · 1,060 units · 74,467 m² · 510 parking.

03 · THE TEAM

Heal House	Sponsor, owner and operator · wellness, clinic and retirement programs
LiUNA	Pension capital behind the land guarantee · union construction labour
Nesting Ground	Affordable Housing Guarantee Pool · non-profit housing partner
Sunray Group	Hospitality partner · funds the 80 wellness-stay suites
Cube Building Systems	Modern construction and building technology
V1	Construction management · Mike McGrath, formerly of Tucker HiRise

04 · NEXT STEPS

1. Register with the receiver; confirm whether the existing conditional offer is still alive (its financing condition lapsed Oct 9).
2. LiUNA and Nesting Ground: guarantee terms and cap.
3. Building Ontario Fund meeting, through Ryan Adam.
4. BCH and CMHC pre-application meetings.
5. Offer to the receiver at about $31.0M, firm and fast.

05 · TO CONFIRM

- Stamped drawings, unit mix and the Tower A / B floor-area split.
- Zoning is residential only: the clinic podium needs an amendment, after a hold removal, minor variance and consent.
- Parking: 510 approved spaces, none for outside clients.
- Retirement rents by market study; development charges by municipal quote.
